
CleverCleaner Free

CleverCleaner Crack+ Free [32|64bit] 2022

CleverCleaner is a lightweight software application whose purpose is to help you delete unnecessary, obsolete, and temporary files stored on your computer. It can be used for gaining some extra space on the disk and is able to deal with browser data and Windows logs and files. Does not require installation

You can take advantage of the tool's portability status and run it on the target system by simply opening the executable file. In addition, you can keep it stored on USB flash drives or other devices to carry it with you all the time. Minimalist window CleverCleaner reveals a small panel that has to offer only a few control parameters for the deletion process. You are allowed to select the target partition that is scanned for unnecessary files. Customize a deletion task You should not let yourself get deceived by the minimalist GUI because the application has a lot of tweaking parameters to offer. They are hidden under the hood and can please even

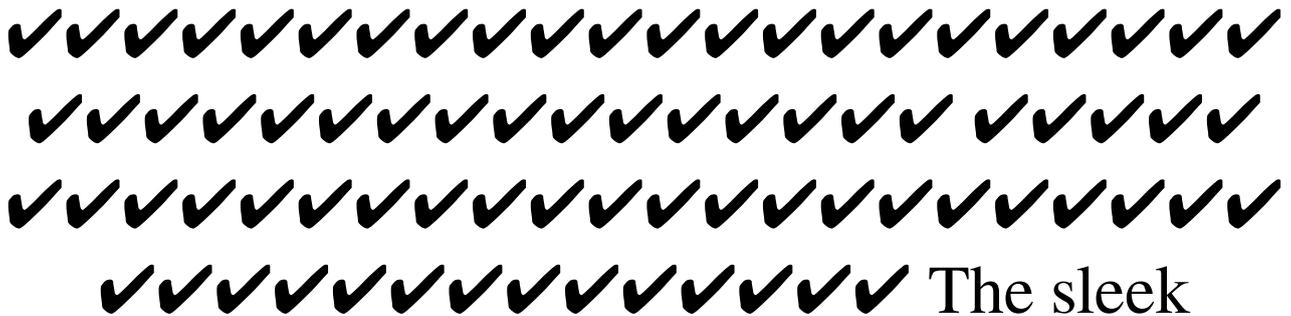

professional users. CleverCleaner gives you the possibility to activate a normal deletion process, send items to the Recycle Bin so you can still recover them, or permanently delete data from your computer so it cannot be retrieved. What's more, you can make the program show a confirmation dialog. The cleanup task can be applied to multiple browsers, namely Chrome, Internet Explorer, Firefox, Opera, and Safari, and you may specify the items that you want to remove, more specifically cookies, cache data, and history. What's more, you can delete file search masks, temporary directory, recently used documents, Recycle Bin items, old update

files, and system logs. Tweak advanced features An advanced set of parameters is implemented for helping you search for files on the disk using wildcards, create an exclusion list based on file extensions, as well as exclude directories from the search process. At the end of a scan you can check out details about the name and size of the identified items, and pick the files that you want to delete. A scan process does not take too much time but this pretty much depends on the size of the disk and number of junk items. Final words All things considered, CleverCleaner provides a simple and efficient software solution for helping you remove leftovers and

unwanted items from your computer, and is suitable for rookies and professionals alike.

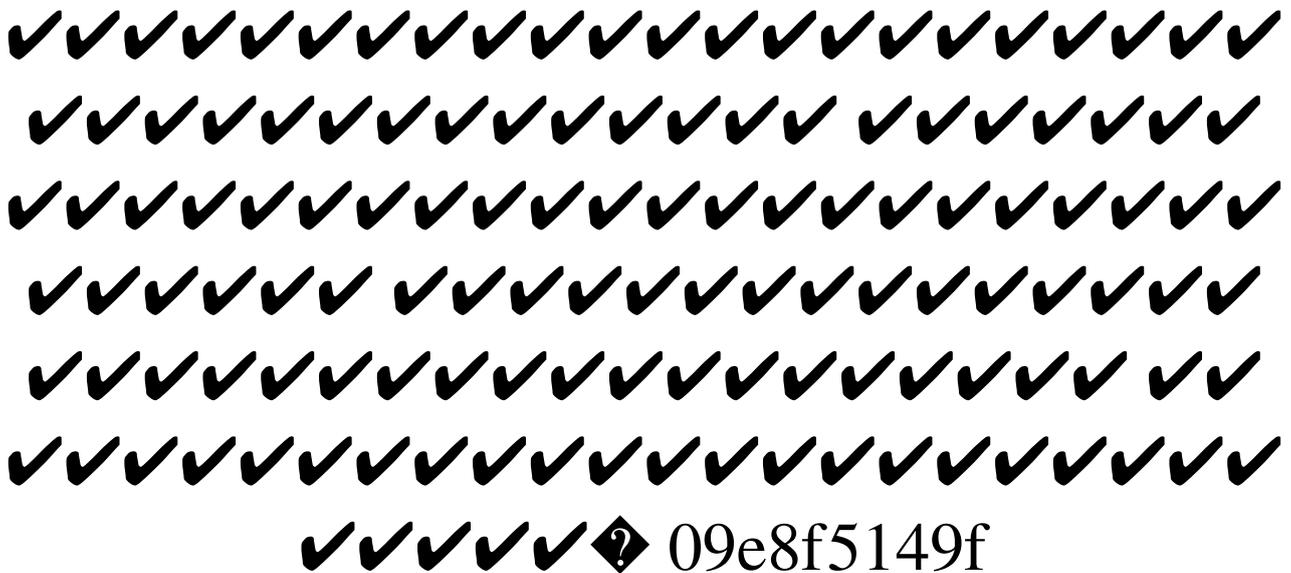

Total Cleaner is a lightweight utility application whose only purpose is to help you remove temporary and otherwise unnecessary files. In fact, it is quite suited for beginners

CleverCleaner Full Version [Latest] 2022

interface of the software and the high quality of its features make it a great tool to have on

hand for a fast and efficient scanning of your personal files for unwanted items, such as files, search masks, Recycle Bin items, and much more. You can rest assured that no valuable files are harmed during the process and thus, you won't be losing important data.

CleverCleaner is a lightweight software application whose purpose is to help you delete unnecessary, obsolete, and temporary files stored on your computer.
