Huawei Unlock Software Mobile Phone is one of the most important things for our life. Especially for the teenager, the mobile phone is the main tool to control every part of their life. If your mobile phone is

KeyMACRO is the perfect tool to protect against lost/stolen/worn/damaged/compromised cellphones, iPhones and tablets. Without the need to compromise a smartphone's SIM card for the purpose of remote locking, using a remote login key is the perfect solution. The application works with several different platforms including Windows, Mac, iOS, Android and BlackBerry. It is capable of taking the following actions: * Allow unlimited login keys * Block SIM card attempts * Block booting the smartphone * Blacklist SIM card numbers or phone numbers * Blacklist phone numbers * Back up/restore lost keys KeyMACRO includes a password manager that allows to store, edit, search and backup user login keys. Main features: * Password manager * User management * Key list management * Lock/unlock * Block booting * SIM blocking * SIM blocking with blacklist * SIM blocking with blacklist plus * SIM blocking with blacklist plus * Blacklist SIM numbers * Blacklist SIM numbers * Blacklist phone numbers * Blacklist phone numbers * Password manager * Backup/restore * Unlock/block using a remote login key KeyMACRO use mobile remote login keys to bypass a lost/stolen/damaged/compromised smartphone/tablet lock. These login keys can be created using a laptop computer or any Android, iPhone, Blackberry, iPad, Windows Mobile or even Windows Phone smartphone. KeyMACRO includes a built-in key list. As a result, if your smartphone is lost/stolen/damaged/compromised, you can recover all the login keys stored in your password manager. The password manager comes with a blacklist feature that allows you to blacklist a specific SIM number or a phone number. This feature allows you to lock your smartphone/tablet. KeyMACRO can block booting, which is a feature that allows you to block a SIM card number or a phone number that is trying to unlock your smartphone/tablet. KeyMACRO is capable of sending SMS messages to all user numbers. KeyMACRO is compatible with many mobile operating systems including Windows, Mac, iOS, Android, BlackBerry, Windows Mobile and even Windows Phone. KeyMACRO also includes a built-in remote login key generator. 77a5ca646e
