How to modify a list value If I have a list: `a = ["1", "2", "3", "4", "5", "6"]` and I want to perform a function that

changes every number in a list in a selected way to give a specific result like this: a = ["1", "1", "2", "3", "4", "5"] I tried using several solutions but none of them gave the results I was expecting. 3da54e8ca3
