Hot Guns is an action-adventure shooter video game developed by Petroglyph Games and published by Square Enix on Microsoft Windows, PlayStation 3 and Xbox 360. It was released in North America on February 9, 2009, and in Europe. A Nintendo DS version of Hot Guns was released in Japan on April 8, 2009 by Square Enix. Plot The game takes place on board a helicopter of the U.S. Army Air Force before, during, and after the events of the Columbine High School Massacre. As a pilot, the player's goal is to protect the president's daughter, Abby, from the maniac gunmen and prevent them from killing the president. The player begins by flying to Colorado and taking a ride in the helicopter of the Army's 813th Special Operations Squadron. Upon reaching the high school, the player is told by General Campton to fly to Boston; upon reaching Boston, the player is told by the president's wife to fly to Maryland; upon reaching Maryland, the player is told to escort the president's daughter to New York. After the president's daughter is safely delivered to New York, the player is informed that the plan was a success and that the president's bodyguards have been taken care of. An epilogue with Abby reveals that she is working for the U.S. Army as a helicopter pilot and that she got her job through her efforts to protect the president's daughter. Gameplay There are various maps with one or more green dots appearing on the screen. When a dot reaches the player, the player is given 10 points, and the yellow player checkpoint is placed in front of him/her; points are lost when the checkpoint moves or when the player takes damage. When a dot is in the midst of enemies (which can come in various flavors, from armed gunmen to chickens), he is given a number of rounds, with a maximum of three rounds per enemy and infinite bullets (not counting the one in the player's gun). When all dots have been destroyed and the number of rounds is complete, the player receives special objects from the game-host, such as a map, a compass, music CDs, or mission backup files. The player can usually choose to go back and fetch the objects, but if the player has a mission backup file on his/her save file, then the player is given the option to forget the mission. There are numerous cutscenes in the game, the most important of which is the one that occurs when the player first arrives
