Thank you. by r.On How To Get Into Day Trading When you think of day trading, most of you probably think of high risk of getting rich quick schemes. However, day trading can be a very profitable way to make money. If you are interested in day trading, you first have to determine what kind of trader you want to become. Don't get into day trading to make a quick buck. Day trading is a great way for you to start investing and if done right, your investment can turn into a great source of income. I have created an article on how to get into day trading. I hope you find it useful. Accounting Information First, you must have a trading account. This is the account where you will deposit your money. You don't have to deposit all your money in this account. You can start by just depositing \$500 or \$1000. The maximum amount you can deposit into your trading account is \$10,000. You can also use retirement funds and pocket money to trade. But your account must be registered in your name. Otherwise, you will have problems. Access To Resources Day traders usually use their laptops or smartphones to trade. You can get these devices for free. You just have to make your own arrangements if you have a personal computer. You can purchase a computer but it will cost you more than \$1000. You can however, trade using your smartphone. That's what I do. You will need to have Internet service or a good Internet connection. You can use your friends and family to help you as long as you keep it a secret. But you have to remember that you cannot trade for money from your relatives. It is illegal to trade for money through people you know. Make sure that you have all the necessary equipment. You need to keep a trading log for every trade. Your trading log is a record of how you have traded and how much you have earned or lost. You
