What's new in AnyWay! - Challenge 4:

AnyWay! - Challenge #4 is here, and as usual, lots of improvements and cool stuff to unlock. Just keep on reading the post and play the challenge, those sexy items are too tempting.

Cheers, and don't forget to rate us! :) Glad you finally arrive! We wanted to create a part of the sandbox, where you can play and feel the attraction to this great challenge. We know you all love it, whether it's your first time around or the fifth. But this time, we added 2 new mini-challenges too, so you'll have lots to unlock! :) We hope you enjoy it, and to see your incredible items! IMPORTANT: Should you experience any technical issues, or be having problems installing or playing this game, please do let us know by leaving a comment below or on the game's facebook page. And YES, the game will auto-update on the same day as the post, and we'll try to make sure it stays updated at all times. If you now have AnyWay! - V1.4.4 installed on your Android or iOS device, you can just simply jump straight to the main menu, where the skinnies are waiting for you to play. ;) General improvements: - Improved graphics of all base-models. - Double-point score for the challenge right after the first start. - Added some new fresh items to build in Player Warehouse. - Added some new 3D wallpaper backgrounds. - Viewing mood now has an alternate color (for iOS devices). - Much more better looking navigation and general user interface. - Greatly improved performance. - Made some bug-

fixes and updated game to iOS 6, now iPhone and iPad owners now can play this version too. - Optimized app. - Much smaller app. Each of the above categories can now be accessed from the main menu as shown here. To get to the third point you have to unlock certain character and get a plethora of freebies, one at a time. ;) You can tell how you've played lots of extra stuff by adding new colored stars to your character page. For the third point, you need a high amount of bonus-points to unlock all the bonuses from the "Bonus space", so we obviously won't keep track of all this here since it's pretty much pointless. Turn right and you'll see the shop where you can access the "Player Warehouse" section

How To Install and Crack AnyWay! - Challenge 4:

- **Dear Community, We have another Video for which there is a crack, that is back from the days of P3x Workshop and after the very successful release of Campaign pack,**
- **Campaign pack was created by our main contributor @prox.**

- **But as you probably have all already known, all of our main contributors here at TweakTown are busy with other projects and issues and we wanted this Video to be self-sufficient and independent from all that. So with the same premise, this new AnyWay! Cracking Project is the latest project coming from the team at TweakTown.**

- **Regardless of the product, we receive the information from the community, upload the footage, produce the "cracked" version and publish them to their channel on the popular**

web-based software YouTube, we call these videos challenges.

- **This AnyWay! is like a personal challenge for me as I consider this as one of the best cracked app we have available for free, (with not much required to be "cracked" and actually most of the stuff is already in there like Activator, Apk Patching,.Rar patching, etc...).**
- **Due to the fact that AnyWay! is so good and "underground" being published in Italy, we decided to grab the whole Italian community, which is now more than 3.7 million, and invite anyone to join and potentially earn some rewards.**
- **Whether they crack or not!**
- **Well here's a good news...**
- **As you already know, crackers are the kind of guys/girls which work all night long, by sleepless hours on end, so we decided to set aside a dedicated channel in which we upload all the videos of our challenge "crack"**

- **Which is usually behind a Paywall.**
- **So, if this doesn't sound exciting to you, don't worry ;)**
- **Any way, to**
