Key Features: “We’ve all seen the potential of video games as a creative medium for delivering experiences. Whether it’s Hollywood blockbuster films and TV series, cinema and live theatre, music or a multiplicity of different genres and artistic expressions,” said JC Beebe, Creative Director, FIFA Team at EA SPORTS.

“We’re going one step further: creating a whole new category of innovation in digital gaming, and we’re ready to unveil what’s next in football.”

Glossary of Movement:

- Jump:** A short movement initiated by the feet, dropping down towards the ground in a vertical or descending arc.
- Vertical Leap:** A very short and agile movement initiated by the lower body that leaves the ground in a downward or vertical arc.
- Short Sidestep:** A short, tight turning movement that often combines an acceleration with a sprint, initiated by the lower body. The foot doesn't leave the ground.
- Long Sidestep:** A longer, stronger, lateral movement initiated by the lower body, that is essentially a continuation of the run. The foot leaves the ground.
- Sprint:** A faster way of moving in a straight line, that involves legs and hips.
- Cruise:** A more conservative style of running, involving the pelvis and thighs. The body tends to tilt its weight forward while running.
- Spin:** A more frantic style of running, involving the pelvis and thighs in alternating movements.
- Shake:** An explosive movement that leaves the ground in

a short, upward vertical arc. It is usually in response to a tackle by an opponent. Tilt: A more casual way of running, involving the pelvis and thighs. It's similar to cruise, but the pelvis is tilted forward. Lateral Shift: An active movement that switches the movement to the other foot in an alternating fashion. Spin Attack: A forward, elastic sliding manoeuvre initiated when dribbling past an opponent. Layoff: Dribbling with a delayed touch on the ball, usually near the edge of the area of play and with the opponent closing in. Narrow Width: Using an opponent's shoulders to facilitate the attack. Crab Walk: A short forward movement after either receiving a ball or being tackled. Sideways Decoy: A running technique involving a quick glance

Featuring more than 70 million card packs and fully 3D-rendered rosters, FIFA Ultimate Team gives fans a whole new way to collect and build their own dream team. Customise your Pro team the way you see fit and challenge your friends to one-on-one matches to see if they can predict your every move. Gameplay Features New Player Development System – The Player Development System has been radically improved, giving players more development tools and ways to progress throughout their career. The new “Evolving Player” technology gives players the unique ability to continue to develop their player through the course of their career. The ability to make big changes to players in a single game has also been significantly improved to allow players to fine-tune their team on the fly and make important tactical substitutions without the need for multiple replays. First Touch Control – Use first touch and control on the ball and move defenders with eye-catching tricks to pull off last-ditch tackles, dribbles, and more. Ball Physics – Feel the weight, size, and

aerodynamics of the ball as it bounces on the pitch with advanced physics based on the surface of the pitch. Real Player Kicks – Pivot, spin, and control the ball like a pro as real players do, and with advanced AI-based movement and control, you'll feel the full weight of the ball. Improved Player Balance – Watch defenders abandon their responsibilities as they're called into action by aggressive attacking runs and dramatic finishes.

A.I.-Directed Tactical Moves – Defend when you have to, attack when you can, and make attacking runs when your team needs you to.

Match Engine – Live the game the way it happens on the pitch. With the most detailed, realistic match engine to date, you'll feel the increased intensity of the game and chaos that occurs as the ball rushes back and forth all over the pitch.

Enhanced Player Traits – Train your players to improve their skills with more traits, drills, and styles to choose from, and make specific training choices to maximize individual player traits.

New Player Creation Kit – Choose your player from one of thousands of thousands

of player prototypes, customise his appearance and skill by selecting from more than 500 new, full-body Pro Sides, master and tune the sound and visual traits of your player, and create your player on the pitch through the new Training Centre. Breakouts – High
