

POLYDRAIN PIPE LUBRICANT

Product Data Sheet

Consistency | **Paste**

Colour | **White**

pH Value | **9.0 - 10.5**

Working Temperature | **-5°C / +40°C**

VOC - Content | **0%**

Description

- Polydrain Pipe Lubricant, a white, water miscible paste, used for assembly of plastic pipes, especially for plumbing and building works.
 - Polydrain Pipe Lubricant has been developed exclusively with synthetic based raw materials.
 - Due to excellent lubricating and gliding properties Polydrain Pipe Lubricant support the assembly of the pipes and avoid, if used correctly, the deforming of the gasket within the sealing area and thereby protects against leaks.
 - We recommend applying Polydrain Pipe Lubricant in sufficient quantities just shortly before the installation of the pipes in order to prevent the drying-up of the lubrication film.
- *We recommend to store Polydrain Pipe Lubricant in closed packages between +5°C and +25°C.*

Polydrain Pipe Lubricant is available in 500g, 1kg & 3kg.
