Both jailbreak and CFW can be used at the same time if needed. I am a 21 year old, out of work (for about 2 years now). I have been writing for about 5 years, and have a few decent novella here and there. But, as I've attempted to submit things, I have found that the process is so tedious to me that I really am not that interested in doing it anymore. Some of the requirements are impractical: a Western Union package to send a picture of yourself to a company for approval, and about a zillion other things. The highest I have gotten a rejection was 'no early submission' so I don't think that's the way to go anyway. I would like to take the plunge and try my hand at publishing, but I feel that I have a lot to learn. My biggest problem is finding a publisher that I would be happy to have on my resume. It's tough to find someone you would want to work with if you didn't happen to end up with a published novel. And, I don't want to go through this for a book I could self-publish. Does anyone have any suggestions on either a publisher that I should know about, or a publisher that you would recommend to someone who just wants to see their name on a paper book? The publisher that I see most commonly is Llewellyn, which would seem to me to fit your goals. It takes a while to get published there, but they have their own criteria and will publish only what they are enthusiastic about. Still, the hard work of writing and submitting and waiting is a tough sell. Check out my name on the front page of the messageboard. I'm a Lance and I've got a few published books (available through Llewellyn, mostly) and several "soon-to-be-published" titles on my own. I wrote a blog on the subject, which I think you'll find helpful. I'm certainly not an expert, but I've been on both sides of the fence, so I might be able to help out. That's right. I didn't think about that. I've been reading quite a bit about Llewellyn and their stats, but it sounds like they are the only publisher (at least in my little geographic area) that I am willing to deal with. I have a hard time believing I can be better off with a small publisher than a large one. I e79caf774b
