Life is full of mechanical puzzles. From the enormous LHC to the everyday car door lock, every time you open the front door you're opening a puzzle box. MOTIONPLAN® is proud to present to you: The Museum of Mechanics - Lockpicking, an exhibition on lockpicks, lock picking tools and techniques, mechanical puzzles and the games that have been made around them, especially those played with mechanical toys and mechanical puzzles. Wired About The Game Museum of Mechanics: For the first time ever in a museum, players can pick the lock on any door they like. Download it today to try the museum for yourself. Wired Magazine About The Museum of Mechanics: Wired Magazine reviewed the Museum of Mechanics for its Museum of Cool, and says, "Busting open boxes full of gadgets, demos, and apps is a weird hobby. But this is the first time anyone's opened a door and tried to pick a lock in a museum. Gamasutra About The Game Museum of Mechanics: Published by 343 Industries and developed by Motive Studios, the Museum of Mechanics (MOTIONPLAN®) takes a playful look at motion and motion planning in games, using technological and historical examples from the past, present, and future. Play Magazine About The Game Museum of Mechanics: The Museum of Mechanics: Lockpicking is a playable exhibition of a common gaming interaction and, well, it's an experience like visiting the Derwent Pencil Museum. Before you go in you're thinking pencils are the most boring thing on Earth, let's get this over with, then you come out toting a gift shop bag ready to fight anyone who dares besmirch one of humanity's greatest tools... if you enjoy seeing the evolution of something apparently simple laid out, thinking about why it is the way it is, and just fiddling with different minigames trying to'recreate' the same thing, this is a bitesized, interesting and well-curated experience. Eurogamer About The Game Museum of Mechanics: Lockpicking was one of the first things GameMuseum was made for. That's a shame, because it's one of the most enjoyable experiences ever released as part of the gallery. Enjoy Gamasutra About The Museum of Mechanics: Many other early-20th-century innovations have been overlooked, but why the lockpicking gene was erased from history was simply a matter of design.

Description:

Have you ever wanted to live your life as a linguist of languages? Do you love hearing people converse in the rich and enchanting fantasy world of Terra Alia? If you answered no to all of those questions, then this is the game for you. As the Press Release declares, Terra Alia is a 4 episode RPG game where players must constantly keep up with the conversational ebb and flow of the fantasy

---

world. The 4 episodes cover 31 Terran Languages, 24 of them are single language languages while the others have mixtures of two or more Terran languages, each episode has multiple languages and language variations not seen in any of the previous episodes. Languages will be appended to your player's list of languages in a compact language list just as the Game of Thrones language bar. If you want to know more about the world you live in during this journey, do not miss out on the perfect person to be your guide through this journey of language acquisition: Celusia Napidianne, a dwarf princess you may have seen in the screenshots. If you like what you see, I highly encourage you to show your support for this project by pledging here.

Sword Art Online: Fatal Bullet is an action game developed by Sony Computer Entertainment Japan Studio (SCEJ-Studio). Synopsis: Following the explosive debut of Sword Art Online, a new chapter is arriving. Although the server went down for maintenance, we are delighted to announce the release of Sword Art Online: Fatal Bullet for PSP™. Fatal Bullet is a PSP action game developed by SCEJ-Studio and published by Bandai Namco Entertainment in collaboration with Aniplex. The game not only takes place in the virtual world of Gun Gale Online, but also takes place before the events of Sword Art Online, when the LVL-TECH system is still being developed. In Fatal Bullet, players will be able to use the environment of the virtual reality world of Gun Gale Online and their weapons and accessories to try to uncover the mysteries behind Gun Gale Online. Glad to be at the beginning of an all new adventure, we challenge you to protect the new world by using your sword in endless action! Features: ♦ A New Hero Appears! As the primary hero of Fatal Bullet, protagonist Aizawa is not alone. He is accompanied by such brave companions as the 1st, 2nd, and 3rd class elite player characters. They are all major characters from the character roster of Gun Gale Online, and their unique skills will come in handy as you fight. All of them are unique characters with their own personalities. There are also new Lvls with their own unique skills that you can learn! ♦ Whichever Character You Want, That's OK In Gun Gale Online, you can freely switch between any of the primary characters you have invested in. However, in Fatal Bullet, all of your weapons and accessories are all bound to a unique character, so it won't be possible to have everyone using the same weapons. In addition, if you pick up a weapon in Gun Gale Online, the effects of other weapons you have invested in will overlap and limit your abilities. However, in Fatal Bullet, you can freely use any kind of weapon and choose from among the many provided effects in accordance with the enemy the weapon was used against. ▼ New Weapons We've introduced a new weapon type to Fatal Bullet. A combo of a gun and a knife, these new weapons will prove more powerful than any other weapon in Gun Gale Online. However, they also have unique advantages. Although the all new shotgun is a strong weapon, the wounding effect is not as strong, and if you c9d1549cdd

With every game there comes an anti-cheat protection that has to be cracked. This brings people together from all over the world who team up to successfully fight the protection. This time around all of our anti-cheat tools are up and running and we're inviting you to team up with us. We're having two competitions. The first being called Cracked Game Challenge (CGC) and the second being Cracked Safe Haven Challenge (CSC). The prize for the first competition is a share of the 15,000\$ prize pool as well as a trip to MWC in Barcelona! For the second competition, we're inviting all of our anti-cheat teams to join us. We'll have a main competition and then 3 additional groups of 5 teams that will fight for some additional cool prizes. The main competition will be a 3vs3 battle with teams chosen at random. The teams from all other challenges will compete in their own 3vs3 battle with a separate leaderboard. We'll have a similar method for drawing the teams as we did last time but this time we'll have two separate 3vs3 rounds. In the end we'll award the champion and the second place. The three groups will be as follows: Group A will be made up of all teams that participated in the CGC. Group B will be made up of all teams that participated in the CSC. Group C will be made up of all teams that participated in both competitions. How to participate: Just be here, in discord, between the 3rd of September and the 3rd of October. Join the discord, and then send a PM with the following: When you have done that, please join the discussion in our discord (link above), send a PM with the following: The topic title: CompetitionDiscussionID - Where do you want to participate? # - CGC # - CSC # - Both All teams should be active in the discord. Then you can log in at the time of the event and try to enter. - CrackedGameChallenge - 15k\$ and a trip to MWC - Safe Haven Challenge - 7k\$ and 5 Dragon's Blood cups - The titles of the Cups are: 1st - Taking the Cure 2nd - Rescuing the Wounded 3rd - Breaking the System 4th - Dragon's Blood and Gold 5th - Take Charge 6th - The Safety of the Community The two competitions are three weeks long. During the entire time, we will
