In Elden Ring, you are a lord that resides in the Lands Between, a fantasy world where the gods rule supreme over the land. You lead the armies of the Elden Ring, a guild that protects the peace and order of the world, and your power reflects upon the might of the entire world. In this role, you will meet diverse people, fight against them, take them in, and befriend them. The fate of the entire world is in your hands. The world is vast.

BATTLE Battles are turn-based, and are your basic means of battling. You move your character and take damage from any enemy attacks. Unlike traditional turn-based games, attacks of higher power will trigger active attacks after the turn is finished, and you will be able to counter the attacks of enemies in your vicinity.

RANGERS Rangers are melee specialists with high physical prowess. They wear a combination of a high-power defensive armor and a powerful weapon for attack. They excel at straight-forward attacks that use their physical strength.

MAGE Mages are archers that use long-range attacks and high-level magic attacks. They wear a combination of a thick defensive armor and a powerful bow. Magic is a powerful form of combat for them.

WIZARD Wizards are spellcasters that control a tremendous amount of magic. They wear a combination of a heavy defensive armor and a long-range attack-type weapon. They use high-level magic in battle.

ITEMS AND ARMS There is a large variety of gear items and weapons in this game. When you level up in the game, you can equip gear items that offer various effects and modifications.

CLASSES AND SKILLS There are three character classes: the Fighter, the Mage, and the Ranger. You also have various skills that can be mastered by using in-game achievements and items.

GAMEPLAY **Fighter:** A fighter's basic role is to take out enemy fighters. The fighter is the most versatile class, with power available to every class. The damage it deals reflects its overall level. Fighters can use heavy armor and use high-level weapons in battle to attack enemies using massive punches and heavy sword strikes.

Mage: The Mage class is the spellcasting class, and uses high-level magic to attack enemies. It is the only class that does not use gear items, and instead has only a short weapon and a long
