Trainz 2019 DLC: QJ Steam Locomotive Crack + Download (April-2022)

This update for Trainz 2019, adds one of the last remaining Pacific Locomotive Diesel QJ Class in production, with a choice of Baldwin-Western or CAF-built engines, and also includes a 2x2 CAF QJ Tender. The locomotive are a real sleeper, so train your engineer to operate in both night and day time. About The Game Trainz 2019: Trainz 2019 is the most ambitious Train Simulator release to date with the biggest world to drive around in, over 900 territories, and the biggest and most dynamic modding suite available. Plus the largest and most detailed model railroad of any simulation to date! You will be driving the biggest and best train of all, the new dynamic Trainz 19 locomotive. This DLC adds the powerful and unique QJ locomotive, with choice of a CAF or Baldwin-Westinghouse engine. There is a 2x2 version of the QJ locomotive, offering a total of 4 different locomotives to play with. Experience one of the most powerful Chinese locomotives ever made with the China Railway QJ class locomotive. Used by China Railways from the 1970s, the QJ was a type of mainline heavy freight train. Beginning life in the Datong locomotive factory the prototypes and early production of the class were designated HP, being

redesignated as FD class during the cultural revolution before becoming the QJ class in 1971. This class became the primary mainline freight locomotive on the Chinese rail network by the 1980s, before eventually being displaced by diesel locomotives during the 1990s. With the steam era drawing to a close on the national Chinese railway network many QJ locomotives were used on industrial lines, as well as on the Jitong railway. Several of the class have been preserved since they left regular service. Drive one of the many different locomotives and consists across your routes. A huge amount of content has been included in this package to give you the full experience of the QJ class steam locomotive. Features 5 x QJ locomotives with different details, with both Chinese and American versions The most powerful type of steam locomotive of China! Challenging top-end operating experience! Historic appearance of QJ locomotives! Customizable engine parts Lifelike appearance with detailed models and textures A variety of effects and functions such as: Auto-Connect Air Brake Hoses Auto-Numbering d41b202975
