Crack: ELDRING-GCIt has long been a part of American history to tell the story of the world's first Thanksgiving, which occurred on November 27, 1621. In it, "the Native Americans whose land the Pilgrims claimed at Plymouth ... saved from starvation by giving them the harvest of their own fields," wrote British historian Arnold Toynbee. In recent years, Thanksgiving has come to be associated with overindulgence, and for some people, the notion of eating turkeys all day has become a bit of an annual food penance. We have even learned a lot about cranberry sauce, and the "peekaboo" green bean casserole. But how can a holiday celebrating gratitude, and all that it symbolizes, be anything less than magnificent? How about in a futuristic reinvention of Thanksgiving? Thanksgiving has been metamorphosed into Remembrance, a day of reflecting on the past, and planning for the future. Here's what Thanksgiving is supposed to be about, according to food writer and noted bon vivant M.F.K. Fisher: "The only purpose of food is to nourish you, to stimulate you, to arouse you, to satisfy your hunger, to prove its reality, and to encourage you to eat it. That is food's sole business in life." I guess we don't have to tell you how to live your life, but Fisher's passionate defense of Thanksgiving, or "Remembrance," as she called it, makes a lot of sense. On Remembrance Day, wherever you may be, you will be invited to commune with your family and friends, and to appreciate the bounty of the world. Though Thanksgiving celebrates "harvest" or "liberty," its true purpose is collective well-being. It serves as an affirmation that the human spirit, that spark of life that takes form in the human body, is worth celebrating. I feel fortunate to live in a community that has as one of its major holidays an event that highlights this sentiment. Community is
