Latest Stuffs, Short Story Articles, Games, and TV.We previously reported about Go Launcher, an Android launcher that has gained the attention of the crowd for its looks. And boy, the ambiance is indeed great, especially when it's coupled with the fast, efficient, customizable and absolutely customizable software. This is what Go Launcher truly is and is great for customization, personalization. These features are quite common and many launchers already have them, but Go Launcher is one launcher that provides them all. It is one of those launchers that is now on the verge of a huge update, including a new icon system, themes that allow you to transform the icons as well as change the colour scheme of the app drawer. The launcher as seen before. Starting with the new system for icons, the Go Launcher icon system is being completely revamped. Gone are the icons found on the back at the bottom, replaced by their new and improved icon space on the app drawer. Go Launcher 3.4 On the other side, the icon in the app drawer is moving to the left hand side of the screen. Here you'll find the time and the battery, quick settings and app shortcuts. The new Go Launcher icon system will only take a few taps from you. Once you get used to it, Go Launcher icon system will become second nature to you and you
