This program is a popular image editor for web server-based systems. ## Frame Shop Frame Shop (www.frameshop.com) is a web-based online service that allows you to upload your images and then upload an additional image to be printed or embossed on the back. It's a fun tool for learning to use and can be used as a reference when making your own frame artwork. ## Frame Buddy Frame Buddy (www.framebuddy.com) is a web-based online service that can make your images look as if they were professionally framed. As with Frame Shop, you can upload your own images and then upload an additional image to be printed or embossed on the back. The service is simple to use and can be fun to use as a reference when making your own frame artwork. ## PREVIEW ADOBE is phasing out the PREVIEW feature in newer versions of Photoshop.
