
Who Is The Richest Robloxian Latest

Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. The more popular a game, the more Robux users are likely to spend on it. On average, Robux users spend US\$9.41 per month per active account.[96] Roblox also allows developers to gain some revenue through advertising. In 2016, Roblox generated revenues of US\$227.7 million.[97] In 2017, Roblox generated revenues of \$293 million, up from \$199 million in 2016.[98] In 2018, Roblox generated \$348 million, and in 2019, \$371 million. Based on the company's financial statements, Roblox's cash flow was positive in the years 2018-2019. In September 2018, Roblox announced a US\$500 million round of venture funding led by Naspers, a South African media and investment company, Valence, ICONIQ, Kima Ventures, and others. The company said it would use the funding for growth in the U.S.[99] In January 2019, Roblox announced \$500 million in new financing[100] and said it would use the funds for growth in the United States and investment in emerging markets. In February 2019, Roblox announced it has raised \$500 million in funding.[101] History Roblox was released in 2006 by the U.S.-based online game development studio Roblox Corporation, which was founded by David Baszucki and Erik Cassel in 2004. In September 2010, the company announced it had reached a total
